

## DT6100 - Upholstery, Trim and Tack Tools

Today vehicles are held together with many different types of spring clamps, barbed studs, grommets and adhesives. This tool set will help technicians remove trim, emblems, switches, molding and many other prying jobs.

The flat stainless steel blades provide strength with a broad fulcrum point. Many uses will be found for these handy tools. Blade is heat treated stainless steel, handle two component blaze orange and black.

Patent Pending, Made in Taiwan for Vim Tools
